THE MATRIX COMP PLAN

2 X 12 MATRIX HOW IT WORKS IF YOU BUILD IT RIGHT

Our community building rewards are easy, fair and most importantly where all are equally rewarded. We pay out a massive 50% in community rewards. With a simple system of duplication, you are rewarded every time, any person, in your community makes a purchase of one of our brand building NFTs. This is why community building is the most effective way of building a happy and functional community. We pay out a total of 42% on our community building rewards and 8% of the total revenue from the sales of our brand building NFT's goes into 2 ranked loyalty reward pools, which you are entitled to once you complete the simple requirements. This is a great way to keep earning from our system and there is something for everyone.

*8% of the total revenue allocated to 2 Loyalty Pools
