GLOBAL NFT GROUP'S

Unique Selling Points

Our business model is a hybrid model like no other, with GNG you enter, earn and learn all in one place. Bringing the best of Community Building, investments and new technology trends, together as one working unit, that make business sense and create long term sustainability.

We are building the world's largest happy and functional community with our own brand building sophisticated penguin NFT collection backed by our very own token. The goal is to be the world's first NFT Index Fund with our own dividend paying PNGVN token, making the community the key to long term success and sustainability.

GNG gives both a short term income earning opportunity and a long term wealth creating strategy, all in one place.

A HAPPY, FUNCTIONAL AND ENGAGED COMMUNITY will make this an opportunity like no other, where you only need to build a community once, where everyone is rewarded, and

where we collectively benefit from rising markets in technology **which will see exponential growth in the coming years.**

It's all about being in the right place at the right time and with GNG we all have an opportunity to Build a phenomenal company together with a shared common goal!

Why and how because we have built the perfect business model, as 95% of our turnover goes back into our business giving much more real value to the community. As a company that will be audited quarterly upon listing, everything will be open, transparent and in the public domain.

Our commitment is to give back 50% in community bonuses, 45% to the PNGVN tokenomics and 5% to cover operational costs. Never before has there been a company that will be driven by the community and never again will the community be part of a company that is 100% committed to their success. Together we will be a true force in the NFT and Community Building space.

"With GNG you can enter, earn and learn all in one place as we have developed a hybrid business model that has never been done before that makes business sense and creates long term sustainability."

RIGHT PLACE

At the right time

Why now?

The emerging development of NFT technologies and products, coupled with the growing digital assets market, opens up great opportunities for investors. The recent years have seen growing volumes of capital flow into the NFT market, both as a way to increase wealth through speculation and as a way to invest in an emerging market. That in the future will connect Blockchain technology with traditional markets and this growth is deemed to continue into many years to come.

We have seen that for individual investors, the great variety of opportunities in the NFT space can be daunting, which

entails risk of losing assets or missing opportunities due to the lack of access to undervalued assets, but now by becoming a part of the GNG community, the opportunities are endless and the business model is designed for success, for those who become a part of our journey, and capitalise from these rising markets in perfect synergy.

This is the niche market that the GNG community and The PNGVN Token will impact, with phenomenal Investments in this market like no other company to date, together with a happy and functional community we have an opportunity to change the landscape forever.

"Timing in Business is crucial, coupled with the right product backed by a functional community, it becomes explosive."

GLOBAL NFT GROUP (GNG)

A strong community backed by the PNGVN Token

A Unique opportunity

Once a decade, comes a multi-faceted opportunity like no other.

In the recent decades we have had the Dotcom Boom and the Crypto rally, now we are at the cusp of the NFT Boom, the next technology trend of the decade. This coupled with the predicted rise in the digital assets user market to 1.8BN users by 2030, makes for an explosive opportunity.

A research report by TECHNAVIO predicts an NFT Market Value increase from \$27BN today to \$147BN in 2026.

A 600% rise in the coming years and this is what we are most interested in.

We know that NFT's are the next Rising Market, but the question was: How do we approach this opportunity in the best possible way for our company and clients?

For that Global NFT Group have the answer with the PNGVN Token., which entails a strong community backed by a security token.

Let's catch the trends together

Trend #1: A rise in the NFT market by 600% over the next three to five years

Trend #2: A rise in the digital assets market to over a billion active users by 2030

Trend #3: An index linked fund being the most secure financial instrument to create wealth, historically and into the future

So, we have brought together these trends in one amazing opportunity for everyday people like you!

Community Building + Rise in NFT Market + Rise in Digital Assets Use Case these combined with an Index Linked Fund TOKEN = GNG

There are three trends that we believe will create immense wealth over the next coming years supported by extensive external research, and if like us you believe, then GNG is the best opportunity in the market today.

"We bring together community building and diverse tokenomics with financial instruments, that have been used to create wealth over and over again for hundreds of years, all in one explosive opportunity. Now with GNG it is the time for the community to shine."

A SHARED RESPONSIBILITY

Is the key to success in the GNG business model working in perfect synergy

| Community | Product | PNGVN Token | Corporate |
|---|---|---|--|
| The key to Business Success is a happy and functional community, that earns and sustains the business model | The Sophisticated Penguin Brand Building NFT is a viable and global sales product for all markets | Investments in a Rising Market with Quarterly Dividends from Listing to create long term security for all | Open, Transparent and Audited company structure, fully regulated and compliant |

Community Building is a recognised business model and has and will continue to be a big part of business, but when it is done correctly it is also a sustainable business solution that can last forever. GNG are building a community that will be the most rewarded through its massive community rewards plan, to earn while you learn and grow. We recognise that a happy community earns and a functional community sustains, we are committed to supporting and delivering for our community because the community is the key to business success.

NFT COMMUNITY

GNG is the next generation community in the NFT space

Communities

Most NFT communities rise from within NFT projects that launch with 10 000 uniquely different avatars.

Becoming a true member of the community usually requires you to own one of its avatars. As the community grows, it works towards building a joint culture and identity that acts as a brand to the outside world. In these cases it is the company that benefits from the community and ultimately the community that builds the wealth for the company. Unfortunately in these cases the majority of the revenue is used and goes to the founders of the company and the community in the long run loose out as there is no real business plan behind the product. If these companies had adopted a stronger business model things would have been very different!

GNG Community

Unlike in traditional markets the Blockchain, Crypto and NFT markets are driven by communities. Successful projects are built on social dynamics, unlike other companies the GNG community is built to be functional and engaged.

Exclusivity helps create demand and social status. However, the true power of NFT communities lies within the incredible marketing power that they can unleash on social media, as customers that transform into ambassadors.

This works towards building a joint culture and identity that acts as a brand to the outside world. We offer our community so much more. A unique business investment opportunity with both short term and long-term financial gains; and GNG are the only ones taking this opportunity forward in this way, in this rising market!

Investment categories - What 6 Months Looks Like

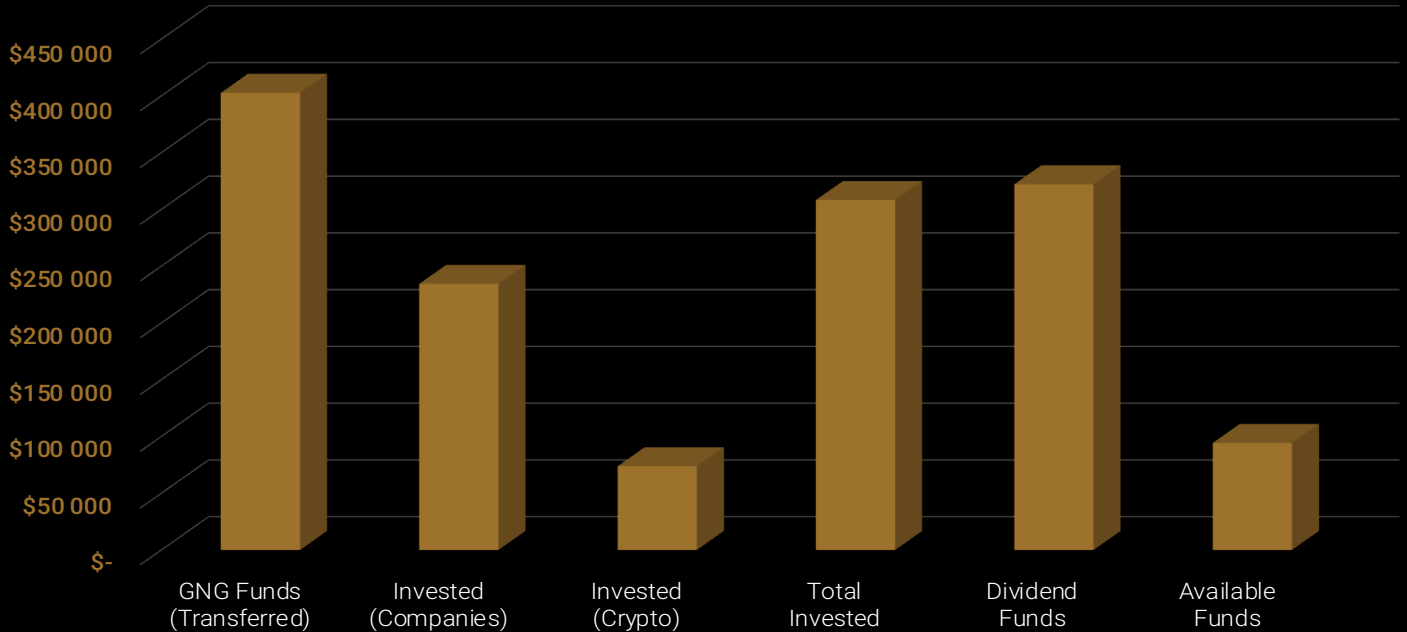

An index fund tracks the performance of a market index, our market index will be the NFT Market. With a diversified investment portfolio we will hit the index and our goal is to invest in at least 200 NFT and crypto projects, this will allow for lower investment risk and potentially higher returns. The GNG community will be gifted the PNGVN token that will be a token backed by real investments in this rising market and this will secure our community within this opportunity like never done before. The PNGVN token will also be a dividend based token and pay out quarterly making this a secure structure for the long run giving value to every community member.

"A Diversified Investment Portfolio is the greatest way to reduce risk and create wealth in a Rising Market where timing is Key."

BEST STRATEGY

Investment Fund Vs PNGVN Token

Investment Fund

- ! Fund units
- ✓ Advanced portfolio management
- ✗ Dividend reinvestment
- ✓ Risk reduction
- ✓ Convenience
- ! Fair pricing
- ✗ High entry
- ✗ Cost High fees
- ! Tax inefficiency
- ! Poor trade execution

PNGVN Token

- ✓ Token (sell when you want)
- ✓ Advanced portfolio management
- ✓ Dividend Pay-Out
- ✓ Risk reduction
- ✓ Convenience
- ✓ Market pricing
- ✓ Low entry Cost
- ✓ Low fees
- ✓ A Strong Community
- ✓ Secures better Agreements

The largest difference between an Investment Fund and the PNGVN Token is the Community. With our structure and business model we pay out more in commissions than an ordinary Investment Fund, but we gain so much more with a regular and constant cash flow into the PNGVN Token securing long term wealth for all.

AT YOUR SERVICE

Note from GNG Management

The first six months have been absolutely amazing and we are so excited for the next six months. We have set into motion a firm start to our business opportunity and are thrilled with the results so far. Our commitment is steadfast to deliver a world class business for many to be a part of and share in a collective common goal. We know that if we stick to the numbers and our business plan then the huge upside will set many on a path to financial freedom and also long term security. Business is never designed to be easy or to cut corners and taking the right path may take longer but will give us all long term security and sustainability.

It has been a huge pleasure to work with leaders from around the world and the love and commitment that we have experienced has been humbling. We will continue to engage and support our leaders and the whole GNG community to take our business plans forward and delivery will be the key to our continual success. We would like to extend our heartfelt thanks to all who have been a part of our journey so far and will continue with our servant leader mentality to enhance our opportunity even further.

Everything starts from nothing and has the potential to excel if nurtured and delivered in the correct manner, GNG has been, and will continue to be a key driver in business delivery, with a continued commitment to be with you every step of the way.

GNG Management

"Business is not about doing the easy things, it's about doing the right things and the right things are usually harder but give the greatest results. We are planning to be here for a very long time."
