EQUAL & FAIR EARNING POTENTIAL

THE MOST REWARDING BONUS PLAN FOR ALL

Our community building rewards are easy, fair and most importantly where all are equally rewarded.

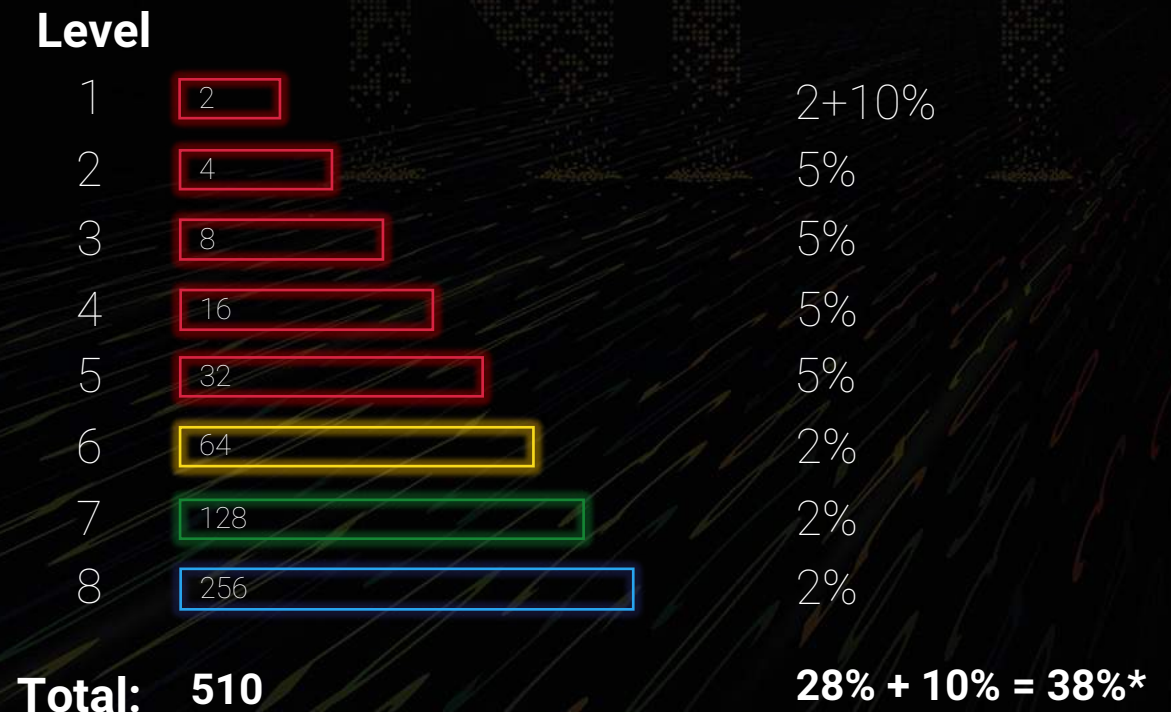

We pay out a massive 50% in community rewards.

With a simple system of duplication, you are rewarded every time, any person, in your community makes a purchase of one of our brand building NFTs.

This is why community building is the most effective way of building a happy and functional community.

We pay out a total of 38% on a community of 510 people and 12% of the total revenue from the sales of our brand building NFT's goes into 2 ranked loyalty reward pools, which you are entitled to once you complete the simple requirements.

This is a great way to keep earning from our system and there is something for everyone.

EQUAL & FAIR EARNING POTENTIAL
